MOHAMED AHMED QURTAM

Cyber Security Engineer

+20 1015220163 | +20 1024227004 | moqurtam@gmail.com

Mohamed Qurtam (LinkedIn Profile) | Mohamed-Qurtam (GitHub Account)

PROFESSIONAL SUMMARY

Adaptive **Network Security** Engineer and **Tier 1 SOC Analyst** with hands-on expertise in router/switch configuration, firewall administration, and real-time SIEM monitoring. Skilled in combining network topology insights with security operations to analyze log data, perform initial triage, and accelerate incident response. Proven track record in designing resilient architectures, minimizing attack surfaces, and executing proactive threat detection strategies to defend enterprise environments.

EDUCATION

B.Sc. Communication & Electronics Engineering – Benha University

Grade: Excellent with Honors (June- 2024)

TECHNICAL SKILLS

Firewalls: Palo Alto, FortiGate, Firepower
Blue Team & SOC: Incident Response, Threat Detection, Log Analysis, Security Monitoring, SOC Metrics, Playbooks, Malware Analysis, Digital Forensics
Network & Security Tools: Splunk (SIEM), EDR, Wireshark, Nmap, Metasploit, EVE, GNS3
Network Security: IDS/IPS, Firewall Policies, Network Segmentation, Traffic Analysis, CCNA Routing and Switching
Operating Systems: Linux, Windows
Cloud Security Fundamentals: AWS Architecture, AWS Core Services, Cloud Security Basics
Programming: Python, Bash Scripting, C/C++

PROFESSIONAL EXPERIENCE

Network & Security Engineer | Co-brand solution (Sep 2026 – now)

- Design, deploy, and secure enterprise network and security infrastructure for clients across the MENA region, including firewalls, switching, Wi-Fi, and SD-WAN. Monitor and troubleshoot to meet SLAs, run security hardening and vulnerability assessments, and document solutions for client handover.

Content Creator – Cybersecurity Track | Armstrong (2024)

- Created 20+ educational modules simplifying cybersecurity concepts
- Boosted learner engagement through structured content

Session Coordinator | Almentor (2023–2025)

- Managed 100+ technical sessions with high participant satisfaction
- Reduced session issues through refined coordination workflows

IT specialist | The Information Systems Department at the Egyptian Military Academy (2025 – 2026)

- performed maintenance and repairs for computers, monitors, and printers, managed account administration tasks, and installed firmware, updates and system images for PCs.

- **Programming Tutor (DEMI) | iSchool (2026)**
  Teaching students, delivered programming lessons, guided students through coding projects and problem-solving activities, and helped them develop logical thinking and fundamental programming skills.

Projects

• Network Security Architecture Project (Graduation project) (Project Book)

- Designed and implemented a secure network using Palo Alto firewalls
- Configured virtual routers and segmented networks into multiple zones
- Implemented NAT policies and application-based security rules
- Applied QoS policies to optimize network performance
- Deployed DoS protection mechanisms
- Achieved secure, scalable, and high-performance network architecture

• Security & Development Projects

- Python-based signal analysis and game development projects.
- Developed web applications using HTML, CSS, JavaScript, and backend development concepts.
- Built technical projects involving networking, embedded systems, and automation.

CERTIFICATIONS AND TRAINING COURSES

Certificates drive link

- Deploying Security Strategies for the Modern Network r04, (Certificate)
- Sales Specialist: Kaspersky Next Optimum (S47.2), (Certificate)
- Fortinet NSE 4 – Self study
- SANS SEC450 – Self study
- Palo Alto Firewall – Self study
- Black Belt Firewall Support Stage 2 (Jan 2026), (Certificate)
- Black Belt Support Stage 1 (Jun 2026), (Certificate)
- Storage concept 101 – Self study
- Server+ data center course - Self study
- Windows Endpoint Investigation - Self study
- Blue Team Scholarship – CyberTalents, (Certificate)
- SOC Analyst Foundation – SIEM XPERT, (Certificate)
- AWS Academy Cloud Foundations – NTI, (Certificate)
- Red Hat System Administration I 9.0 – NTI, (Certificate)
- Python and Django learning guide - Udemy, (Certificate)
- eLearn Security Certified Incident Responder (eCIR) – Netriders Academy, (Certificate)
- Cisco CyberOps – National Telecommunication Institute (NTI) , (Certificate)
- Introduction to Cybersecurity Bootcamp (Cohort 5) – CyberTalents, (Certificate)
- CompTIA Security+ - Self study
- Telecommunications and Network Infrastructure Training – Systel Telecom company
- CCNP Security core – Netriders Academy
- MCSA core – Netriders Academy
- RCNA routing & switching, (Certificate)
- CCNA routing & switching – NTI

SOFT SKILLS

Analytical Thinking, Problem Solving, Effective Communication, Teamwork, Decision Making, Time Management, and Technical Presentation Skills

LANGUAGES

Arabic (Native), English (Very Good)
